Three From Metropolitan Area Electrocuted at West Saugerties Sunday Afternoon Trying to Re-Rig Fallen Radio Aerial

### TWO DIE FROM 9-W INJURIES

Sharon Springs Woman and Brooklyn Man are Victims of Crash Late Sunday Afternoon

Copper Wire Is Thrown Over High Voltage Line

An attempt to re-rig a radio aerial blown down by Saturday's storm brought death by electrocution to three people at West Saugerties Sunday afternoon about 12:25 o'clock. An attempt was made to throw a copper aerial wire over the 4,000 volt service wire of the Central Hudson Gas and Electric Corp. at Notch View Park near West Saugerties.

Tragedy Reconstructed  
Mrs. Ella Simon, 38, of 150 150th street, Westchester, L. I., visitor at the cottage where the accident took place, apparently was holding the wire when John Schenk, 32, of 2155 Third-third street, Astoria, L. I., attached a stone to the aerial and attempted to throw it over the service line.

As the heavy charge drove through the small copper wire and felled Mrs. Simon apparently Schenk went to her rescue and was also struck down.

Nearby was Jacqueline Krabel, 11-year-old daughter of Mrs. Eva Krabel, of 2155 Third-third street, Astoria, L. I., owner of the cottage. When she saw the two people on the ground she apparently went to their rescue and became tangled up in the high voltage wire and became the third victim of the accident.

All Three Badly Burned  
All three were terribly burned before assistance could reach them and it was not until power company employees broke the circuit on their arrival that the three victims were released from the highly charged aerial wire.

Attempts to disentangle the wire by means of a long wooden pole failed.

No One Saw Accident

While no one saw the actual accident the circumstances of the terrible tragedy could be readily reconstructed. According to Sergeant James J. Cunningham of the Saugerties outpost, who with Trooper Walter Keefe responded to a call for assistance, Schenk had been attempting to repair the aerial. He had planned to attach the wire to a pine tree across the road from the Krabel cottage. Along the road ran the high tension service wire of the electric company. The large pine tree stood about 75 feet from the highway in front of the row of cottages in Notch View Park which lies near West Saugerties and about seven or eight miles from Saugerties.

Unaware of Danger

Apparently unaware of the danger of shorting the highly charged wires he attached a stone to the aerial wire and then directed Mrs. Simon to hold one end of the wire, he attempted to throw the wire over the high tension line. As the wire touched the heavily charged service line Mrs. Simon was thrown to the ground. Schenk went to her rescue and as soon as he touched the wire he was thrown to the ground and severely burned.

Sergeant Cunningham said he believed the young girl, seeing the two in trouble also went to the rescue and became entangled in the wire. All three bodies lay in a row on the ground with heavily charged wires tangled about their bodies when the crackling of the current attracted the attention of C. W. Smith, of Milwaukee, who occupies the adjoining cottage.

Attracted to Scene

The odor of burning flesh and the sound from the high tension line ripping down the aerial also attracted others to the scene. Smith, realizing that if he touched the bodies or the wire he too would be electrocuted, got hold of a long pole and attempted to remove the aerial wire but was unable to do so. Joseph Weaver, of 16091 32nd avenue, Flushing, L. I., also went to the rescue from the Krabel home.

A phone call brought members of the Central Hudson staff to the scene. Fred W. Snyder and Clayton Smith, of Kingston, Thomas Wray, of Saugerties, and William

Four Others in Hospital With Varied Wounds

Injuries suffered in an accident on route 9-W near the Staten Island Inn about 5 o'clock Sunday afternoon resulted in the death at 8 o'clock this morning of Harry Schenk, 33, of 1586 East 13th street, Brooklyn. His death marked the second fatality in the crash. Mrs. Louise Clausen Arndt, 29, of Sharon Springs, having died shortly after midnight Sunday at the Benedictine Hospital, where occupants of the two cars involved were taken.

One of the machines was driven by Mrs. Arndt and the other by Mr. Schenk. The woman was driving alone while five others were riding in the Schenk car.

Four in Benedictine

The condition of the four others injured was reported as "fair" at the Benedictine Hospital this morning. The others are: Murray J. Stein, 36, of 1255 East 24th street, Brooklyn, suffering severe fracture of the leg, multiple contusions and lacerations and a concussion of the brain.

Mrs. Constance Stein, 30, his wife, injured wrist, bruises and shock.

Robert Stein, 5, lacerations.

Mrs. Harry Schenk and Helen Schenk, 5, were treated for shock, bruises and other slight injuries.

Harry Schenk, 33, driver of the car, suffered a fracture of the right leg, multiple contusions and laceration and severe concussion of the brain. His condition was considered serious when admitted and grew steadily worse.

Accident Investigation

The accident was investigated by State Troopers Arthur Reilly and Stickle and also Deputy Sheriff Vredenburg, Brown and Halwick.

Mrs. Arndt, driving a Ford convertible coupe north on her way to Sharon Springs, suffered a crushed chest and frightful lacerations of the face and head. An autopsy was ordered performed by Coroner Lester DuBois of New Paltz who was summoned to investigate the double fatality. At the time of the crash Mrs. Arndt was alone on her way home. Drivers of other cars on the road told the officers that she had passed them not far from the scene of the accident going "fast."

On Way South

The Schenk party was en route south on their way home when the Ford car attempted to pass around another car traveling north and apparently swung too far over on the west strip of concrete and struck the Schenk car almost head-on. After the crash both cars were on the west strip of pavement with the Arndt car facing across the road instead of north. Both cars were practically demolished.

State Trooper Reilly was at the vicinity on patrol just north of the scene and had just passed the Arndt car a few moments when he was notified of the crash by a passing motorist. Returning to the scene Trooper Stickle took the Stein boy and another victim to the hospital and other cars assisted in taking the injured from the scene but the condition of Mr. Schenk was such that it was found necessary to call the Conner Ambulance Service to take him to the hospital.

Physicians Assist

Dr. B. W. Gifford of Saugerties, and Dr. Saul Ritchie of this city who passed the scene shortly after the accident gave first aid to the injured before they were removed from the scene.

An investigation by the officers showed that the south bound car was being operated on the west strip by Mr. Schenk with Mr. Stein and the Stein lad in the front seat of the Buick. On the rear seat were Mrs. Stein, Mrs. Schenk and Helen Schenk.

Japan Warns U. S. To Move Citizens From Battle Area

Wars Continue to Roll Across Orient and Spain as Revolt Spreads in Holy Land and British Sustain Losses

(By The Associated Press)

Japan warned the United States and other foreign powers today, for the third time, to evacuate their citizens from China's battle areas, as wars rolled on in the Orient and Spain and revolt spread in Palestine.

Two previous Japanese warnings, one a month ago and the other last Saturday, had asked that all foreign vessels and foreigners be removed from the path of Japan's drive up the Yangtze river toward Hankow, China's provisional capital. The United States rejected the first and has not answered the second. The new warning specified a half dozen cities as probable targets for Japanese bombardment, including Hankow, Nanchang, important Chinese air base, Changsha, on the Canton-Hankow rail road, and Kiating, 135 miles downriver from Hankow, where Chinese have constructed a boom to block the Japanese advance.

In Palestine, a mobile guard of British troops and Jewish constables suffered heavy casualties in an ambush on a roadside ditch.

Communications Cut

Telephone communications were cut over the whole of northern Palestine as strife between Jews and Arabs raged unabated. Night fires broke out in Jewish property in tense Haifa. Police seized many bombs, one in the lobby of Jerusalem's newest movie theater. An Arab policeman was killed at Tulkarm, where a 24-hour curfew was enforced. Five Jews were reported killed and eight wounded Sunday.

Cheered by improvement in the condition of King George VI, suffering a sudden attack of gastric influenza, Queen Elizabeth went to London from the Royal Lodge at Windsor, where the King is resting.

The British monarch's illness was his first since he became King in December, 1936. It was described as a "mild attack.... which will necessitate rest for the next two days, especially having in view His Majesty's projected visit to France."

Squadrons of insurgent planes swept over Government lines in the Esgadon mountain range of eastern Spain as government commanders rushed all available reinforcements into the mountains. The last natural barrier to the insurgent drive down the Mediterranean coast to Valencia.

23 To Kalon Collies

To Be Trained as Seeing Eye Dogs

Twenty three champion bred adult collies left Kingston this afternoon via railway express for Lockport, Ill., to be trained as seeing eye dogs for the blind.

The collies, given to the Catholic Youth Organization by the To Kalon Kennels, of West Hurley, will when finally trained be given to the poor blind who are unable to buy a dog. This training under the auspices of Bishop Shields will be identical with the work of the seeing eye dogs in Morris town, N. J. The collie will guide his master through the hazards of every day life taking him safely through traffic, up and down stairs, as well as protecting him from numerous other obstacles of which the blind person would otherwise have no warning.

Long the hero of dogdom and for centuries mankind's most trusted guardian of sheep and children as well as a companion dog the collie has been selected by Bishop Shields from more than 30 breeds of dogs, recognized by the American Kennel Club, to be used exclusively at his training school. Female collies are given the preference in this training but a few males are also used.

These 23 collies, bred and raised by the To Kalon Kennels, were selected from the kennel by Mrs. Robert Browning, a recognized American Kennel Club judge, for their individual intelligence and aptness for training. The majority of them could if shown in the ring capture a blue ribbon in stiff competition but their life is to be given to more noble work.

Wagner Mentioned As Possible Judge On Supreme Court

Capital Speculation Concedes Likelihood President Might Appoint Far Westener to Fill Cardozo's Vacancy

Washington, July 11 (AP)—Capital speculation over a successor to Supreme Court Justice Benjamin N. Cardozo, who died Saturday after a long illness, centered today on two possible courses: President Roosevelt might select Senator Robert F. Wagner (D., N. Y.), or some other New Yorker, because the late justice was a resident of that state.

He might appoint a resident of the far west, because that region is not now represented on the court.

There is, of course, no requirement that the President follow either of those courses. In any event, he probably will make no appointment before fall, for the court is in recess until October.

The few political leaders remaining in Washington's midsummer heat agreed that Mr. Roosevelt undoubtedly will choose a man of the same liberal views as the 68-year-old Cardozo, who had voted in favor of more New Deal legislation than any of his associates. One of his last major opinions upheld the constitutionality of the social security program.

Third Appointment

The appointment will be Mr. Roosevelt's third to the high court. Justices Van Devanter and Sutherland, both of whom had opposed many administration measures, retired from active service, and the President replaced them with Hugo L. Black of Alabama and Stanley F. Reed of Kentucky.

Two possible objections were coupled to mention of Wagner's name. First, there already are two New Yorkers on the bench—Chief Justice Hughes and Justice Stone. Second, Wagner is 61 years old, and Mr. Roosevelt has indicated at various times he generally prefers to place slightly younger men in judicial posts.

Appointment of Wagner might have a marked effect on the New York political situation. He comes up for reelection to the Senate this year, in addition, a second senator must be chosen to succeed the late Royal S. Copeland.

Other New Yorkers also have been proposed by friends for the Supreme Court. Among them are Ferdinand Pecora and Samuel Rosenman, state supreme court justices and Solicitor General Robert H. Jackson.

Honor in Death

Port Chester, N. Y., July 11 (AP)—Political and civic leaders who honored U. S. Supreme Court Justice Benjamin Cardozo in life as one of the ranking legal scholars of his time gathered here today to honor him in death.

Funeral services for the distinguished jurist, who wrote many precedent-making decisions in the New York and Federal Courts, will be held at 2 p. m. at the home of his old friend, Justice Irving Lehman of the State Court of Appeals.

Cardozo, 68, who refused three years ago to follow the advice of physicians to ease his labors, died Saturday night at the Lehman home of heart disease aggravated by overwork.

Following the services, performed by Rabbi Dajessurum Cardozo (no relation) of the local congregation Shereh Israel, the Justice will be buried in the Cypress Hills cemetery in Queens, Long Island. A police motorcycle escort accompanied the procession on the 50-mile trip to the cemetery.

Troopers Use Bloodhounds

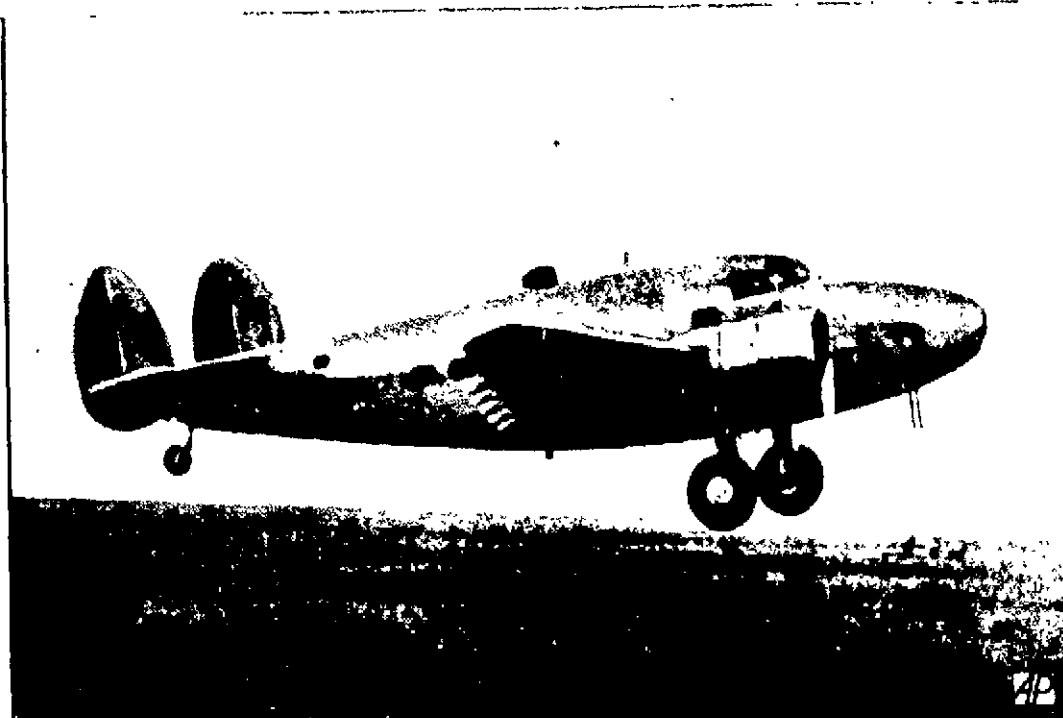

In Search for Young Girl

East Greenbush, N. Y., July 11 (AP)—After searching the countryside most of the night with bloodhounds, State Troopers abandoned temporarily today their hunt for 17-year-old Mary Well, missing from her home in Bunker Hill since Saturday.

The girl was last seen, Sergeant E. P. Conway said, when she left home for nearby Nassau on a shopping trip. Bloodhounds, brought from the State Police Barracks at Hawthorne, followed a trail from the Well home which circled through fields and ended on the Albany-New York road, Conway said.

The Sergeant said he expected the search would be resumed later in the day.

### Lands in Paris Today

Bound for Paris on the first leg of a projected around-the-world flight, the specially-designed \$85,000 plane piloted by millionaire Howard Hughes takes off from New York. Successful, the flight was the first nonstop from New York to Paris since Col. Charles Lindbergh flew the same route in 1927.

At right, Howard Hughes, millionaire flier and movie producer, sits in his specially-built \$85,000 plane at New York as final preparations for his non-stop flight to Paris by the "Lindbergh route" were made.

King George Better, Physicians Report

Windsor, Eng., July 11 (AP)—Cheered by the fact that King George spent a quiet night, Queen Elizabeth motored to Buckingham Palace today from the Royal Lodge at Windsor where the monarch is ill with gastric influenza.

Lord Dawson of Penn and Sir John Weir, physicians attending the King, examined him during the morning.

The Queen packed her two daughter-princesses off to London yesterday and spent the day nursing her husband and administering the diet of milk his doctors ordered.

At Buckingham Palace it was stated officially that the King's condition had improved but that it would be necessary for him to rest a few days. His physicians indicated no bulletin would be issued today.

## Federation Gifts To City Library And TB Hospital

At the final meeting of the Kingston Federation of Women's Clubs held last spring before it was dissolved, it was voted to give half of the remaining funds in the treasury to the Ulster County Tuberculosis Hospital and the other half to the City Library.

To date a cheque for \$71.04 has been given to each one of the institutions; to the City Library for grateful appreciation for the use of the room for meetings for so many years and to the Tuberculosis Hospital for the continued maintenance of the room donated by the Federation of Women's Clubs so long as the amount lasts.

It was also voted at the final meeting that the Hemstreet Memorial Music Library, which was given to the federation by Frank Hemstreet in memory of his wife, be given to the City Library. This also has been done by the committee and now the valuable collection of musical manuscripts has become a part of the library.

President Routes Train Across Texas Panhandle, Arranges for Three Speaking Engagements During Trip

Fort Worth, Tex., July 11 (AP)—Rested by a "nice, quiet family day" at this one-time frontier outpost, President Roosevelt routed his train through the Texas Panhandle today bound for the Pacific coast.

He arranged three platform appearances en route to Amarillo, scene of his biggest speech of the day.

Taking with him Senator Tom Connally, Gov. James V. Allred and a group of Texas Congressmen, the President agreed to talk briefly to station crowds at Wichita Falls, Childress and Amarillo.

Wichita Falls is in the district of Rep. W. D. McFarlane, one of the President's train party for this portion of his transcontinental speaking and sightseeing journey. Amarillo, Childress and Childress are in the district of Rep. Marvin Jones, chairman of the House Agriculture Committee, who also came here to ride with Mr. Roosevelt.

Other Texas members of the house expected on the train are Maury Maverick, Hattin W. Sumners and Fritz Lanham.

All the Representatives are seeking re-election.

The President in an extemporaneous radio address to Texans last evening hinted however that his remarks in this state would lack the political significance of earlier speeches in Ohio, Kentucky, Arkansas and Oklahoma.

In those states, Mr. Roosevelt gave indications he wished the renomination of Senators Robert J. Bulkley, Alben W. Barkley, Hattie W. Caraway and Elmer Thomas. Texas has no senatorial election this year.

The President's friendly radio talk suggested the Lone Star State needed more industries but should not get them by the route of cheap wages.

## Freeman Pictures To Be Reproduced In Templar Annual

Enroute to Cooperstown on Saturday afternoon, Kingston was paid a visit by Past Grand Commander of Knights Templar of New York, Chalmers L. Pancost, Chairman and Associate Member, Frank E. Keller of the Publicity Bureau of the Grand Commandery, Sir Knight Keller is a member of Kingston Lodge, No. 10, and Past Commander of Bay Ridge Commandery, No. 79, Brooklyn.

This Grand Commandery Committee was enroute to Kingston to take part in the Knights Templar Loyalty Day Services at Cooperstown Sunday.

Past Grand Commander Pancost, who presided at the 125th Annual Grand Conclave June 13, 11, stopped over in Kingston to obtain copies of the photographs of the parade pictures which appeared in The Freeman. These unusual pictures will be reproduced in the 1938 Proceedings Book of the Grand Commandery a Knights Templar publication which will be distributed to every state.

While in Kingston, presiding at the 125th Grand Conclave the last official act of Grand Commander Pancost was to issue the following proclamation which was first announced in Kingston.

Proclamation

To Loyal Sir Knights

Greetings:

Whereas we the Christian Masons of Today, enjoy all the honors and rewards that come to earnest and loyal Templars, and

Whereas, in Templary is to be found the greatest inspiration of friendship and brotherly love,

Therefore we, the Soldiers of the Cross, and true American citizens, feel that we should extend to all men of God, everywhere, throughout the State, the same blessings and prayers, that we enjoy as faithful soldiers of Jesus Christ.

Be it Resolved, That the Sir Knights taking part in the Divine Services and Banner Procession on July 16th, 1938, in Cooperstown, be forever known as Loyal Sir Knights of Empire State Templary.

Courtesies and sincerely,  
Chalmers L. Pancost  
Grand Commander of the State of New York.

Kingston, N. Y.  
June 13, 1938.

### 16 1/2-HOUR HOP

Le Bourget Officials and Crowd Give Americans Welcome

Paris, July 11 (AP)—Howard Hughes landed at Le Bourget airport at 1:58 p. m. (10:58 a. m. E. S. T.) on a trans-Atlantic flight from New York, the first leg of a projected round-the-world flight.

The American sportsman flung himself on a easy landing, tussling up a concrete runway in front of the airfield where a crowd of officials and onlookers rushed to meet the big, gleaming twin-motored plane.

16 Hours, 38 Minutes

His time from New York was 16 hours and 38 minutes—less than half of the time of Col. Charles A. Lindbergh who flew non-stop from New York to Paris in 1927 in 33 1/2 hours.

The American flag was run up on the airfield mast five minutes before Hughes and his four-man crew landed over the field long before they were expected.

The fliers were expected to remain in Paris long enough only to refuel and then take off for Moscow in hope of completing their round-the-world odyssey within six days.

The big plane rolled to a gentle stop in front of Le Bourget Field's main building, where United States Ambassador William C. Bullitt headed a throng of French and Americans waiting to greet the aviator.

Hughes, however, did not cut his motors for almost a full minute after coming to a stop—the first time since Lindbergh to make the flight.

As soon as the propellers stopped whirling the ambassador went to the door of the plane and opened it. He stuck his head in and shouted.

"Congratulations, did you have a good trip?"

Hughes said he was planned to take off for Russia "as quickly as possible."

"One or Two Hours"

And that means "one or two hours," he added.

Hughes was the first of his crew to alight. He was evidently tired, but had a broad grin on his face. Before coming out he had put on a necktie and a hat.

The flight leader was followed by the other four airmen.

"We had a fine trip," said Hughes. "We made it in 16 hours 38 minutes."

French officers stepped up to put Hughes on the back and touch his hand.

Bullitt introduced his army and naval attaches and French officers to Hughes and members of his crew in turn.

The five fliers, accompanied by the ambassador, went to the airport commandant's office after police succeeded in cutting a pathway through the dense crowds which were shouting:

"Vive les Americains!"

"Long Live the Americans!"

A special ground crew took the plane in hand immediately after Hughes and his crew left it and began to tune up the motor.

Gasoline trucks were backed up and started immediately refueling.

All Caught Unawares

So quickly did the plane arrive at the airport that everyone was caught unawares. The first inkling was when the plane dove out of the clouds to descend quickly to the field.

Because the plane is of the same type as those used by a large commercial airline with a terminal here many observers thought at first that the plane was simply another airliner from London.

The first intimation officials had that the fliers were on France was a radio message informing Le Bourget they were about to land.

It barely had been received when the plane's broad wings dipped down toward the surprised crowds.

Until that moment, in fact, airport officials denied the fliers even had reached the French coast.

Brown had awry, Hughes immediately checked the plane and gave orders to refuel it. He said he had not been able to check but believed he had 250 gallons of gasoline left when he landed.

Markets Quieted  
Down Last Week

Stocks showed a slight gain in Saturday's trading, with a total volume of 592,300 shares. Industrials were ahead for the day. 0.54 point to 138.20 in the Dow-Jones averages; rails gained 0.11 point, to 27.31; utilities were up 0.12 point, to 21.70. For the week as a whole, however, markets quieted down and security averages showed moderate losses after two weeks of heavy gains, industrials having a net loss for the week of 2.31 points.

Commodity markets generally followed stocks, but again indices of business and production were inconclusive. The steel industry is still unsettled as a result of the recent price concessions and change of system and there has been a net decrease in the amount of buying since prices were reduced two weeks ago. Report of carloadings was on the favorable side, electric power consumption showed no great change. Cotton goods were firm in price and the cotton market turned upward Friday following the appearance of the government crop acreage report. The wheat market was distinctly weak, with a crop of record proportion moving off the farms with unusual rapidity. A considerable portion of wheat is going into government loans.

The loan value has not yet been determined, but the basis on existing commodity prices, could be anything from about 60 cents to 85 cents a bushel, in the discretion of the secretary of agriculture, who has available appropriations totaling nearly three-quarters of a billion dollars.

Although June retail sales of most makes of automobiles was under expectations, estimates of July sales and production figures are undergoing moderate upward revision. Dealers are reporting more inquiries and some plants are delaying assembly shut-downs. Field stocks are reported to be dropping steadily. It is expected that new cars and trucks in warehouses and dealers' hands totaled around 270,000 as of the end of June, compared with 435,000 on December 31, and 445,000 on June 30 last year.

Internal revenue collections for the fiscal year ended June 30 totaled \$5,658,385,125, the largest sum ever collected by the Bureau of Internal Revenue. It was an increase of \$1,055,189,810 over the preceding year. The largest previous year was in 1920, when collections totaled \$5,407,580,251. Douglas Aircraft and subsidiary had net consolidated profit for six months ended May 31, of \$1,093,149, equal to \$1.91 a share on \$570,683 shares of capital stock. With sales in the second quarter running 91 per cent ahead of the same period in 1937, first half earnings compare with \$525,822 a year ago.

The three-year notes to be issued under date of July 20, in the amount of \$200,000,000, by the Reconstruction Finance Corporation will bear interest at the rate of seven-eighths per cent. The notes are fully guaranteed by the government and are exempt from all taxes except surtaxes, estate, gift and inheritance taxes.

It is announced that the new bank investment and examination rules are experimental only. They will be continued in force for a trial period of from three to six months and then will be reconsidered before final adoption.

Eastern railroads will raise passenger coach rates from two cents to two and a half cents a mile on July 25, on authority granted last week by the ICC. The rate of two cents a mile in parlor and sleeping cars will remain.

The treasury's stocks of silver bars have passed the three billion dollar mark, but the silver purchase program is still short of fulfillment by more than one billion ounces.

Endorsement of  
L. K. Rockefeller

LEWIS K. ROCKEFELLER

Congressman Lewis K. Rockefeller of Chatham was unanimously endorsed Saturday as the Republican candidate to succeed himself in Congress this fall. The recommendation was made at a meeting of the Congressional district delegates at a meeting at the Hotel Stuyvesant at 2 o'clock Saturday at which the delegates from the five counties of the 27th Congressional District unanimously named Mr. Rockefeller.

Philip Elting, Ulster County Republican chairman, presided. Delegates present were:

Greene county, Milton O. Ball, chairman, Edward Dougherty, Monroe Francis, Ulster County, Fred Beagle, chairman, Arthur L. Parsons, William Spencer.

Sullivan county, Howard Beecher, chairman, Louis F. Hoyos, Edward Bland, Columbia county, Lewis K. Rockefeller, chairman, Major A. S. Callan and Hiram Johnson.

Ulster county, Philip Elting, chairman, Floyd Powell, and Henry Williams. Major Callan nominated Mr. Rockefeller to succeed himself and the nomination was seconded by the delegates of the other four counties. Mr. Rockefeller was unanimously recommended as the party's choice and following the recommendation Mr. Rockefeller addressed the convention on National issues.

The meeting was also addressed by several of the delegates including Mr. Parsons of Schoharie county, Mr. DeLoys of Sullivan county, Mr. Beagle of Schoharie county and Fred Stang of Ulster county. Mr. Rockefeller was designated to fill the vacancy caused by the death of the late Philip H. Goodwin of Cossack, last fall. Mr. Rockefeller was elected for one year to fill out the unexpired term of Mr. Goodwin and received the majority of the vote cast in the five counties of the district. His fall will be a candidate for the full term of two years.

Senator Arthur Wicks of this city has also been unanimously recommended by the delegates of the 29th Senatorial district as the Republican candidate for Senator from the district which comprises the counties of Ulster, Delaware and Greene.

## SAUGERTIES NEWS

**Motor Trouble Calls Firemen**  
Saugerties, July 11.—The Saugerties fire department was called on early Saturday morning to extinguish the ammonia fumes from the refrigerating plants in the Jaffe market and Vozdick's grocery store on Main street. The trouble was caused by the shutting off of the village water system at midnight in order to install a new hydrant. The firemen did their work quickly in order to prevent serious outbreaks of fire in both stores and no great amount of damage was done.

**Village Trustees' Meeting**  
Saugerties, July 11.—The regular meeting of the village board of trustees was held on Thursday evening. Mayor George Kerber presided at the meeting and Village Treasurer Keenan read the balances in the several funds. The police department and street and power superintendent made reports to the board which were also ordered filed. A certificate of membership was granted to Arthur Sweeney of the T. B. Cornell Hose Company. Bills were audited and ordered from the following funds: General, \$8,483.41; street, \$2,629.29; Lions playground, \$119.70; sewer bonds, \$2,373.61; sewer maintenance, \$3,333; park, \$75; WPA, \$3,771.13; water department, \$392.97. The minutes were read by the clerk and on motion the meeting was adjourned.

**Five Arrested In Raid on Still**  
Five men, two local, were arrested by State Troopers in a raid on a still near Haines Falls. The two local men were Angelo Fiorino and Joseph Schwalbach. The other three are Joseph Scabarati of South Beach, L. I., James Duncan and his father, Herbert F. Duncan, of South Cairo.

Three men were arrested at the time of the raid and the Duncans, who figured in the alleged "torturing" act by the late Jack "Legs" Diamond several years ago, were picked up later. The arrests were made through identification of license plates. Troopers Buckley of the B. C. I. and Trooper Knight of Catskill made the arrests. Arraignments will be before U. S. Commissioner Arthur C. Connelly of this city.

The rate of gasoline tax in the different states does not appear to seriously influence consumption. Reports from the states to the Bureau of Public Roads show that for the last 2 years the greatest increases in consumption—with few exceptions—have been in states with tax rates above the average.

Local Townsend Club

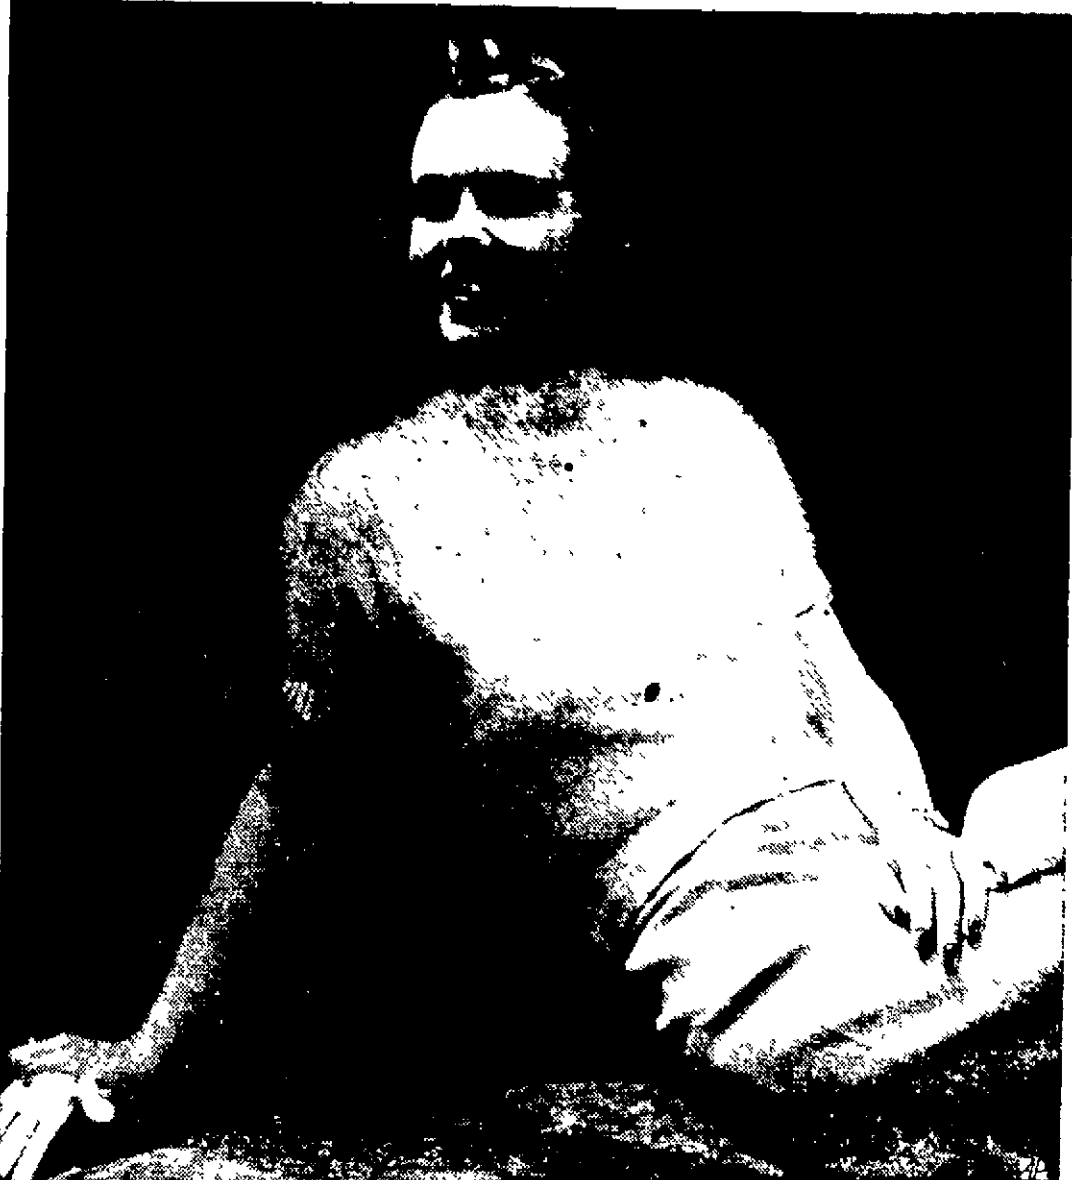

Outing Held Sunday

The Kingston Townsend Club enjoyed a delightful picnic outing at Max Ferro's Pine Grove at Stoney Hollow on the Ashokan road Sunday afternoon. A number of the club members reside in the vicinity. This was a friendly social visit with those members. After spending a restful visit among the pine trees the club repaired to Ferro's ice cream parlor where ice cream and soft drinks were served. Here they sang many of the Townsend Crusade songs to the delight of all.

Wilbur J. Stone and family, of Walden, were guests at the gathering. Mr. Stone is president of the recently organized Townsend Club at Walden. He and Dr. Carr Miller gave short addresses. Tonight Dr. Miller is to address a Townsend meeting in the St.

## Leaders See Defeat Of Gambling Proposal

Albany, N. Y., July 11 (AP)—Leaders of New York's constitutional convention predicted today defeat "by a narrow margin" tonight of a proposal to remove the State's constitutional gambling ban.

As delegates returned to start their fifteenth week of deliberations, the vote on whether or not the gambling proposal should be advanced to order of final passage stood out among various other items of business.

Other developments scheduled for tonight were:

(1) A final vote on a Republican-sponsored ban on unreasonable search and seizure, regarded as virtually certain of success after its advancement to order of final passage, 90 to 69.

(2) A final vote on a Republican-sponsored proposal to require the State to pay the entire cost of railroad grade crossing eliminations, also viewed as virtually certain of success.

(3) Introduction of a Republican-drafted reapportionment plan increasing the State's senate from 51 to 53 and its assembly districts from 150 to 159. This may not be introduced until tomorrow.

Although debate last week disclosed unbroken strength for the gambling proposal, sponsored by Republican District Attorney

Henry Hirschberg of Newburgh, leaders were confident it would fail of advancement.

One of the main speakers favoring the plan, which would leave the entire question of gambling up to the state legislature, was former Democratic Governor Alfred E. Smith.

The reapportionment plan has the approval of Republican members of the convention's legislative powers committee, its chairman H. Burne Bruce, Syracuse Republican said.

It would (1) Have reapportionment on the 1936 vote for governor rather than on the federal census of 1930.

(2) Give the metropolitan area an increase of three and a half Senate seats and decrease the up-state representation by one and a half seats.

(3) Increase the metropolitan Assembly representation by 11 seats with upstate districts losing two seats.

(4) Place the plan in operation in 1940, providing it meets approval of the electorate in November and the legislature fails to draw a substitute measure at its next meeting.

Bruce said the measure would be introduced tonight or tomorrow the dead line for committee reports.

## Rose Ferraro Is New Beauty Queen

Miss Rose Ferraro, Glasco beauty of the Latin type, won the eighth annual beauty contest at Woodstock Sunday. She was in competition with eight other girls for the honor of becoming Miss Ulster County of 1938.

Leonora Davi, another brunette, was second, and Miss Alice Van Deburg, of Stone Ridge, was third in the contest. The judges were Woodstockers: Teddy Sheppard, illustrator and designer, H. M. Robinson of the Maverick road and Adèle Longendike, former model.

The beauty pageant, held at Lido Beach, instead of at Mill Stream Bridge drew a crowd, that cheered for Miss Ferraro as she was presented with the trophy and sash denoting the queenship. Presentation of the main prize and other awards were made by Laura Dean, Mrs. F. Zeller and Mrs. H. M. Robinson.

Joan Alden, of Hurley, received the prize for the most beautiful pearly dress.

At Melville, the Kingston swimmer who added the Hudson from Rhinebeck to Kingston in 28 minutes last week, gave an exhibition in the pool.

Miss Ferraro, the queen, is a brunette. She weighs 111 pounds and is five feet, three inches tall. She is employed at the Crystal Beauty Shoppe on Wall street, as is Miss Davi who won second place.

PEOPLE WANT TO BUY

There is not only a lot of money in this country, but there are a lot of people ready to spend when properly approached. This may be true in any American city. A good tip-off to the situation came recently from a business columnist who told of 14 men sitting around a luncheon table and informally telling of \$12,000 worth of goods and services they had the money to buy, and would buy if properly approached. They merely lacked the initiative to do it without being asked.

Striking corroboration comes from Lorain, Ohio, a steel city where business has been rather dull lately. The editor of the Lorain Journal sent out four reporters to get a line on the potential spending power there. They were told to talk to about 10 people apiece, confining their interviews to men and women with salaries jobs or in business or professions. The inquiry was guaranteed as confidential. The people interviewed indicated a surprising readiness to buy. More than half of them, 25 out of 40, were in the market for purchases amounting to more than \$10,000. Their unsatisfied wants included an auto radio, \$300 worth of new furniture, repainting a house, new clothes, a new automobile, a summer cottage, a home, a used car, a lot for a home, a bookcase, remodeling a house, a wrist watch, a summer dress, a victrola with records, a fur coat, a garage, furniture for a living room, an addition to a home, a break-wall on waterfront property, fire insurance for furniture, and so on.

All these people were simply waiting to be sufficiently urged. No salesman has called on them lately to supply their wants. Now, there is no disposition in any quarter to let loose upon any city an avalanche of salesmen. A sudden and general movement of that kind might arouse resentment and renew sales-resistance. But perhaps a tactful approach in any community at this time would put a lot of lazy money into circulation, and such action throughout the country might start a real wave of prosperity.

GIVING AWAY CROPS

"No country has ever been hurt by plenty," says U. S. Senator Vic Donahey. "Let's give our surpluses away and show the world in deeds, as well as in words, that we're good neighbors. We have helped rob others in the past. Now let's make it up." He would have the government guarantee farmers a fair parity price for staple foodstuffs, encourage crop abundance, and then dump the surplus without charge wherever it is needed throughout the world. This, he explains, would be not only good-neighboring but good peace insurance.

The proposal will take quite a bit of thinking over. A philosophic friend maintains that "people don't like being done good to," and we would only get into trouble and make enemies by such philanthropy. At least, wouldn't we be wearing out the fertility of our own soil for the benefit of other nations? And wouldn't we be disorganizing their own agriculture, upsetting international trade and getting in bad with foreign nations that don't need help?

It is probably unnecessary, though, to lie awake nights worrying about the matter. If American crops are going to be given away, our own needy people will come first, and there are still plenty of them who could eat more than they are getting.

FUTURE POPULATION

The latest population prophecies given out by the government are unusually interesting. The nation, according to experts, will reach a peak of 158,000,000 by 1988, fifty years from now, and from then on will dwindle. Some recent estimates have forecast a lower peak, coming sooner. The most remarkable phase of the new figures is the prospective change of size in age-groups. The number of people from 20 to 44 years old will increase only six per cent, they say, while the number from 45 to 64 will increase 69 per cent. Apparently it is going to be an old folks' civilization.

But prophecy in vital statistics is not an exact science, and these experts might be

wrong. There are too many unknown factors. The government could easily speed up the rate of increase, including the birthrate, by admitting more immigrants. Or there would be a natural and spontaneous increase of population if somehow we entered a period of more economic stability, with a rise in the general level of prosperity.

Two racial items in the population trend are worth noting. Increase of negroes is now no greater than of whites, and the most rapidly increasing racial stock in America is the Indian. Anyone who wants to deduce from these facts that the Indians will really get their country back has statistics on his side. But don't sell out and move away just yet.

ROOSTING PLACES

Now France is picking herself some islands in the western Pacific, a coral group between French Indo-China and the Philippines, southward from Canton and Hong Kong. That is all right with Uncle Sam, and doubtless also with Great Britain. All three of these friendly and democratic powers are now pretty well supplied with islands in that part of the world. The Japanese protest, but nobody pays much attention to them. They don't own the South Seas yet.

Territorially, such coral reefs and atolls, with occasional harbors, are of no value. Their importance is strategic. Some of them can be used as naval or airplane bases, especially the latter. They make roosting places on the Pacific frontier for the big air navies now building. We shall hear more of them.

Prime Minister Chamberlain's insistence that he is "keeping his country out of war" is naturally alarming, when Englishmen remember how an American president once did that.

Now a radio listener complains that, in a Fourth of July program, George Washington "spoke with a British accent."

There are jurisdictional disputes in politics, too; the President is criticised for "meddling" in state primaries.

THAT BODY OF YOURS

By James W. Barton, M.D.

(Registered in accordance with the Copyright Act)  
PREVENTING SYMPTOMS DUE TO THE ITCH BUG AND OTHER INSECTS

Like all boys I wanted to travel all over the world, particularly through the tropical jungles. However, in the back of my mind always was, not the fear of snakes, lions, or tigers, but of annoying bugs and insects that would be crawling about my body day and night. Particularly was I afraid even as a boy of the bugs that would cause such intense itching that I would be continuously scratching and tearing my skin to obtain relief.

Later, as a physician, I met hundreds of cases of scabies in hospital. Scabies, the medical name for the itch, is due to the presence of a little bug or insect which gets under the skin and causes the most intense itching. This insect, which resembles a tiny turtle, can scarcely be seen by the naked eye, gets into the middle layer of the skin and because of the irritating bite cannot get out again and remains there until it dies. However, it leaves its eggs which develop into insects and these insects in turn burrow into the skin. The cure then is to smother the little insects and destroy the eggs.

The treatment has usually been the application of ointments containing sulphur, tar, carbolic acid, zinc, or mercury. Sulphur has been used more than any of the others both in the form of baths and ointments. The process of killing off insects and eggs is sometimes slow and prolonged.

What appears to be a boon to those afflicted with scabies and a preventive for those who must or wish to travel or be where the insects are prevalent, is announced by Dr. R. A. Nolan in Military Surgeon. Dr. Nolan uses sublimed sulphur in a bland paste which combined with a bland oil, applied as a copious layer and allowed to dry leaving a sulphurated film on the body. For treatment, the application of the soap is repeated for three days with daily changes of underwear. The sulphur paste soap contains 18 per cent of sulphur and requires only about half an ounce for one satisfactory application. This thin film of soap will produce enough hydrogen sulphide (gas with the rotten egg odor) to discourage the itch mite from lodging in seams and underclothing.

Just one application of this soap would thus permit one to be amid the itch mite and other insects which cause definite symptoms and even definite diseases in the body.

HEALTH BOOKLETS AVAILABLE

Eight helpful health booklets by Dr. Barton are now available for readers of The Kingston Daily Freeman. They are: Eating Your Way to Health (No. 101); Why Worry About Your Heart? LOVE ON THE RANGE

By William C. Pitt

**The Story So Far**  
Trying to leave his reputation for gun-play behind him, "Blair" Ankrom runs into trouble again when he rescues Lee Trone from a band of thugs. "The Trone" ranch, the Rafter T, is in difficulties, and Ankrom accepts a job there under the name of Abe Streeter. Although Lee attracts him, he remains aloof because of his past. When Colonel Struthers and his daughter Betty arrive to visit the Trones, Ankrom recognizes Struthers as the man he killed to avenge his father's death.

Chapter Nine  
The Sheriff

BEFORE the Stockmen's Bank in Paso Pinto, at Lee's order, Ankrom shoved down a foot upon the brake and brought the car to a stop. A solid-looking man with a great wide forehead lunged against one of the twin pillars guarding the bank's entrance. He did not raise his head, but his sleepy lids, rolling slowly up, disclosed smoke-gray eyes whose glance brushed past Lee as he stepped upon the walk and came to rest upon Ankrom.

He returned the gaze with interest. He saw that the loungee was dressed in range clothes which he guessed to be of expensive make. These clothes, he saw, were well-filled by the heavy-muscled figure of their wearer. The man's cream-colored Stetson was shoved far back from the forehead, disclosing a rebellious tangle of curly black hair.

Abruptly the man's head came up, the gray eyes slid from Ankrom's face and fastened on something nearer. A great brown paw came up and removed his hat while across his heavy features flashed a smile. Ankrom's gaze, slightly shifting, saw that Lee Trone had come abreast.

The man bowed with a gallant flourish. "Gosh," he said, "but it's good to see you, gal. Where you been keepin' yourself?"

"Out of your way," she answered coolly. The big man's white-toothed grin remained. "Shucks," came the lazy drawl, "that ain't no friendly way to talk."

"I wasn't trying to be friendly." Ankrom saw the big man shove free of the pillar in such a way that his bulk presented a barrier between the girl and the door. "Lee, some folks are givin' an old-time dance here on the twelfth. What say we take it in? Been a long time since you an' I have shaken a hoof together."

There was a dry sarcasm in Lee's reply that was not wasted on Blair Ankrom. "It will be a long time before we do again—if ever. Let me pass now, Tom. I want to go inside."

"Why, shucks, I thought you'd stopped to talk with me," he said, and made no move from where he stood. "Seems like you're awful cool today. An' this is the first time I've seen you since you got back. We used to be good friends. What's the matter? Did that college put big notions in your head?"

"Times have changed, that's all—one people, too," she answered. "My going away to college has had nothing to do with it. You're the man I used to know, Tom; you've changed. A strange unrest seems to have settled on this range."

"What's all that got to do with you and me?"

"Your father and my father were never friends."

"But that don't have to make enemies out of you an' me."

"I'm not so sure. My loyalty lies with my father. Things that you and I once found possible are no longer. I don't think we had better meet again."

Ankrom could not see Lee's face; her back was to him now. But he could see the big man's features well; could see a look of resentment stir the gray smoke of those sleepy-lidded eyes. "I reckon," the big man said, "someone has been spreadin' lies about me."

"I'm not so sure that they were lies. There was bad blood between your Dad and mine for many years. Can you assure me that all this time you have not brooded on Ed Rafterford's death?"

"Out To Bust The Rafter T"  
RATHER FORD's sleepy lids masked all feeling from his glance. "I didn't think," he said, "you'd ever doubt me, Lee. It's hard to see..." Ankrom heard his voice trail off. He stood there, hat in hand, his chin sunk down upon his chest, darkly brooding. Abruptly he looked up and his eyes went straight to Lee's.

"This is talk that's goin' round. The best way to put an end to it an' stop these malicious, wagging tongues, Lee, is for you an' me to be seen together." His lips rolled back in a smile that showed his white teeth. "We better go to that dance."

"I can't," Lee said quietly. "I would be disloyal to my father—you must ask it, Tom. Ankrom saw a tremor shake her body, then her chin came up. "Please let me be."

When Lee had gone into the bank, Rafterford came over to Ankrom.

Man About Manhattan

By George Tucker

NEW YORK—Bud, you're wrong about everybody loving a fat man! They don't, not in New York at least. I didn't believe it either when I first heard about it, but after talking with people who are usually reliably informed on such matters there isn't anything for me to do but believe it. Let's analyze the story anyway.

Some time ago, it seems, a special gymnast opened in the midtown sector. They specialized in shaving off extra pounds, and back guarantees if the fat didn't fade, and right where you wanted it to fade.

Now, let's take the case of Joe. Joe's sur guinea pig for today. Joe went to the gym and stripped; he had a couple trainers beat the dickens out of him, chase him till he had spots before his eyes, and him down, cram him into a steam bath and then dunk him into an icy pool.

Then Joe, trembling and exhausted, was hauled onto a set of scales that had been "fixed." Boy, that was great stuff. He was 11 pounds lighter.

Next they led old Joe to the dressing room, and there sure enough were his clothes neatly ironed and pressed. Joe climbed into his trousers. Gee, look at those pants! They were two inches too large. Much more of this and he'd be a walking shadow.

Cozing good nature Joe slipped into his coat. Well, the coat simply hung on him in folds. He couldn't believe it. He was jubilant.

And for only \$100! Dirt cheap, if you asked him. Like taking candy from a baby.

THEY tell me lots of candy was obtained before the bottom fell out of the get-thin-quick racket.

But one day, one of the numerous Joes who had been "pared down" to skin and bones happened to observe a rent in the seam of his coat. He couldn't understand a thing like that, the coat being new. Mrs. Quacker of Quackerville.

Willy Nilly had taken his watch and hung it up on the dash board of the automobile. He was as busy as could be, packing blankets and boxes and boxes of food.

The work went very quickly with everyone helping.

"In a few days we ought to be able to start," Willy Nilly said, stopping for a moment and taking a look around to see what should be done next.

"If you don't need me to do anything for a little while," quacked Mrs. Quacker, "I'll waddle over and say good-bye to Mrs. Quacker. The ducklings can finish my pond cleaning for me."

"Don't forget to tell her we're going on a vacation," laughed Willy Nilly.

"She won't forget to tell that!" barked Rip.

Monday—Mrs. Quacker Quacks!

Washington Daybook

By PRESTON GROVER

WASHINGTON—In connection with the current discussion of Jimmy Roosevelt's wealth and influence, some figures this correspondent gathered might be interesting. Our figures, near enough first hand to be satisfactory, were rounded up before the recent publication of estimates of Jimmy's insurance income. They do not indicate anything ultra fancy.

Our information is that the young Roosevelt puts the "capitalized value" of his insurance business at \$150,000 to \$200,000. That is a somewhat elastic factor but at the time we obtained the figures we were told that his earnings from insurance were considerably less than the "capitalized value." This latter represented the amount at which he valued his business as a going concern.

In arriving at the capitalized value of a company this procedure is followed. A company may estimate that it is making a 10 per cent profit. Then its "capitalized value" becomes 10 times its earnings. Thus, if the company's earnings are \$20,000 its "capitalized value" is \$200,000.

Anyway, He's Got A Job  
REVERSING the process, a company with a "capitalized value" of \$200,000 might be found to have earnings of \$20,000, or anything else from nearly nothing to nearly 100 times the capitalized value.

But whether Jimmy's insurance business was valued for us on the basis of 10 per cent earnings or on some other figure can not be said.

Bits of further information coming to us indicate that he has a \$13,000 equity in the \$37,000 home he recently purchased at Framingham, Mass.; has \$15,000 in securities, and a \$10,000 trust fund set up for him by his father. In addition, his wife, Betsy, daughter of Dr. Harvey Cushing, a prominent Boston brain specialist, was described to us as having about \$20,000 of her own.

Earnings on the securities and the trust, calculated at five per cent, would be \$2,250. Besides this income, Jimmy of course gets \$10,000 as secretary to the President.

Note On A Bus

AT THIS point we turn to a little item that seems to indicate that literary talent may yet be blossoming in government bureaus, and please note that Walt Whitman once was a government clerk in Washington. We were riding in the bus that brings us to work from far off Maryland when the little brunette item sitting beside us wrote a neat bit in a small black book. No doubt she will sometime draw heavily on the little book in drafting the great American novel.

What she wrote was: "An orchid mind in a cauliflower body." It does seem to mean something.

Busy Puddle Muddle

OH, Puddle Muddle was a busy place. Willy Nilly was overhauling his automobile Two-Ways. The bears were helping to clean out the trailer. They also were going to fix up their cave and leave it in "apple-pie order," so Jolly Bear had said. And Christopher had remarked that they even liked to use food in their talk.

Christopher Columbus Crow was in readiness for any errand Willy Nilly wanted to have done. In between times he put his nest in shape.

Top Notch fixed up his General Store. Sweet Face, the lamb, was busy looking over his meadow. Rip, the dog, helped carry packages for Willy Nilly.

The ducks were tidying their pond, directed by Mrs. Quacker. She was hurrying them, too, for she wanted to have time to call on Mrs. Quacker of Quackerville.

Willy Nilly had taken his watch and hung it up on the dash board of the automobile. He was as busy as could be, packing blankets and boxes and boxes of food.

The work went very quickly with everyone helping.

"In a few days we ought to be able to start," Willy Nilly said, stopping for a moment and taking a look around to see what should be done next.

## Baltic Is the "Big Sea"

When the clouds bump together it thunders; stars are angels' peep holes through which they observe the antics of humans and when lightning flashes, God and His army are shooting at devils—these are some of the quaint folk beliefs of the Casubian peasants in Pomerania, Poland's maritime province from which shipping concerns get their seamen.

Casubian peasants are farmers, sailors and fishermen. To them the Baltic is the "Big Sea" and the hundreds of beautiful lakes in their country are known as the "Small Seas." They are Poland's Bretons, hardy and so conservative that they believe in their ancestral lore despite their common sense, notes a writer in the St. Louis Globe-Democrat.

At school the Casub is taught that the earth is a globe, but to him this is inconceivable. He will tell you, despite the teachers' "nonsense" that the earth is a flat disc over which fits the blue dome of the heavens; and that the light coming through the angels' peep holes—the stars—is the radiance of God's throne. And furthermore that Adam and Eve live on the moon. Eve sits eternally at the spinning wheel while Adam leans on his pitchfork.

The weather is changeable from year to year, meet any old Casub woman will tell you, because every January God appoints a new saint to administer it. Like everybody else, saints have temperament and difference of opinion as to what is proper weather, among other things. So the farmer and the fisherman are sometimes up against it trying to anticipate meteorological orders from above.

The Casubs have their methods of weather forecasting. One saying goes: "If gnats play in January there will certainly be snow in May." If Christmas is clear there will be a favorable harvest the next fall; and if it rains on Friday it will rain all week.

## Liberia Founded in an

Effort to Help Slaves

Liberia, Africa's "dark elbow," grew out of American efforts to find a home for slaves freed before the War Between the States. The site was chosen by the American Colonization society and the name was coined by an American minister, says a writer in the Washington Post.

Settlers began landing in 1823, at Monrovia, the present capital. They founded two nations, one called Liberia and the other Maryland, but within a few decades these were consolidated.

Adopting a constitution and flag similar to ours, Liberia proclaimed its freedom in 1847. It was recognized by almost every great nation in the world—except the United States. We waited a while before acknowledging it.

The first hundred years were hard for the new nation. France and Great Britain disputed its boundaries. Original inhabitants resented the intrusion of the freed slaves. And there was no money to develop resources.

By 1910 the country was in such condition that the United States advanced cash, helped out on military, agricultural and boundary questions. Great Britain supplied a gunboat, threw in an English captain to train the "navy."

Liberia is prosperous. It vigorously promotes education and other progressive plans.

## An Old Military Organization

The First Troop, Philadelphia City Cavalry, oldest military organization in the United States in point of continuous existence, was founded on November 17, 1774, by 28 gentlemen "for the defense of the rights of their threatened country." The troops served in various engagements during the Revolutionary war, the War of 1812 (vidette duty) in Delaware and Maryland, and during the Civil war. In 1918 the troop served on the Mexican border. In the World war its members went overseas and shared in the offensives of the Aisne, the Meuse-Argonne and in Belgium. The organization has acted as escort to every President who has visited Philadelphia while in office.

## "The Blood Stone"

A small, silver-mounted crystal ball is known as "The Blood Stone," and is believed to have been used by the ancient Druids for calling down spiritual fire and summoning the gods. It was buried near what is now Chatham, says London Tit-Bits Magazine, with a woman presumed to be a high priestess in a religion that practiced strange and horrible rites; this type of stone was popular with witches. According to legend it has had an evil effect on mankind since the dim ages before Christ was born, and people are chary about possessing it.

## Flag Often Replaced

The Union Jack that flies high above the Victoria Tower of the Palace of Westminster in London when the house of lords is in session is probably replaced more often than any other flag, says Collier's Weekly. Frequently the wind is so violent that it reduces to shreds as many as three ensigns in a single day.

## Tom Mix Accident

Neenah, Wis., July 11 (UP)—Ten persons were injured last night when a freak 15-minute storm caused the tent of the Tom Mix circus to collapse. Orderly departure of 1,200 spectators prevented a larger number from being injured. No one was trampled, witnesses said.

## PRESIDENTIAL ANNOYER SEIZED

Woody Hockaday, Wichita, Kas eccentric, got the bum's rush from police and national guardsmen at Oklahoma City when he tried to jump on President Roosevelt's car. Woody, who lost his shirt in the melee, said he only wanted to shine the president's shoes.

## 104-YEAR-OLD SOLDIER AWOL

James Hancock, 104, slipped away from the reunion at Gettysburg to go sightseeing and turned up in Philadelphia where a policeman found him alternately watching a ball game and taking a nap. The police made arrangements to return him to the Confederate Soldiers' Home at New Orleans.

## Two Men Arrested After Street Fight

Two men were arrested by Officer Ralph Stewart following a street fight near 622 Broadway early yesterday morning.

Augustus Elmendorf of 662 Broadway was charged with assault, second degree and Raymond Post of TenBroeck avenue, with assault, third degree.

According to the officer, Elmendorf is charged with having struck Donald Dubach of Monroe, N. Y., with a bottle and Post is charged with having kicked him in the side.

Labauch was treated at the Kingston Hospital for a head bruise and discharged following treatment.

Both Elmendorf and Post were arraigned in city court before Judge Matthew V. Cahill this morning. Each was allowed an adjournment until July 19.

## Community Night For Block Park

A community night will be held this evening at Block Park. The program will include a softball game between fathers and sons, a bill of entertainment and community singing.

Another talking picture of the series started last week in Block Park will be shown and there will be song and dance numbers by members of the local playground group.

Officers of the park which were recently elected will be installed. The next community night will be held at Loughran Park Wednesday evening.

Final Check Is Hope  
Pale Alto, Calif., July 11 (UP)—Summer's infantile paralysis outbreaks may prove whether science has at last discovered a prevention in nasal sprays. The prospects were described today at Stanford University where use of the spray, zinc sulfate, was discovered. The new development is elimination of spraying and substitution of a simple method of dropping the preventive into the nose.

Sedan Reported Stolen  
Sergeant James Cunningham of the State Police reported to local police headquarters late Sunday night that the sedan of Percy Lecher was stolen from Quarryville. The machine, he said, had been parked in front of the Central House.

Hit by Dog  
Miss Harry Wolven of 86 Ann street reported to the police Sunday morning that her son, Richard Wolven, 12, was bitten by a dog on the right leg. The wound was reported not serious.

Occupants of two cars which collided at Smith avenue and Grand street shortly after noon Sunday escaped uninjured. One machine owned by Anna Hughes of 102 Bruyn avenue, was operated by Albert Merkle of the same address. The other, a Ford pickup truck, was driven by Raymond Brundage of 74 Hoffman street, and owned by Copeland Gates of Lake Katrine. A hydrant near the intersection was damaged and water spouted from it until it was repaired by water department employees. Officers U. Healey and Fallon investigated.

## Cases Disposed Of in City Court

John Lowe, Jr., of 3 Converse street, who was arrested Sunday evening by John Lowe, Sr., on a disorderly conduct charge, was fined \$5 when arraigned before City Judge Cahill in city court this morning.

Ray Wilson and Willie Green, negroes, who were arrested Saturday night on disorderly conduct charges, were given suspended sentences of three days each in jail and ordered to get out of town.

James Casey of Chichester, who was arrested Saturday afternoon on a public intoxication charge, was sentenced to 30 days in jail.

Edward S. Kenney of 208 Victory street, Schenectady, and W. E. Currie of Charlottesville, Va., who were arrested for operating a car with four persons in the driver's seat, each forfeited \$5 bail.

Public Hearing  
On Barber Shops

A public hearing will be held this evening at the common council chamber in the city hall on proposed new regulations for local operators of barber shops and beauty parlors. The hearing will be preliminary to the adoption of an ordinance which will affect the operations of both groups if it is approved, and members of the council committee urge all those interested to attend the hearing so that they may be fully informed as to the merits of the proposal.

## OUT WEST, TOO, ONE SMOKER TELLS ANOTHER

## "CAMELS AGREE WITH ME"

**ROUND-UP TIME** at the famous Pitchfork Outfit, 200,000-acre Wyoming ranch of Charles J. Belden. The picture above shows "Chuck" Curtis, one of Pitchfork's best at "heeling" calves. Exciting work, but it's plenty tough too. So "Chuck's" cigarette choice is Camel!

"When I get dog-tired," he says, "a Camel gives a quick 'lift' to my energy!" And that goes for many another cow-puncher. For out west, too, Camel is the favorite cigarette.

**Are Camels different from other cigarettes?** "Yes," say smokers all over America. Millions know the big difference Camels make in smoking pleasure. Camels set you right!

**CHUCK, HOW COULD ANYBODY SAY THAT ALL CIGARETTES ARE ALIKE? CAMELS ARE SURE 'WAY AHEAD' IN MY ESTIMATION!**

**COW-PUNCHERS** Curtis and Riegel certainly feel that there is a big difference between Camels and other cigarettes. Read what they say—at right!

**On the air Tuesday nights—BENNY GOODMAN**

Hear the one and only Benny Goodman "feel his stuff" on his famous clarinet—from "sweet music" to palpitating "killer dillers." Note the time for getting Benny Goodman's "Swing School" from the following schedule: 8:30 pm E.S.T. (9:30 pm E.D.S.T.), 7:30 pm C.S.T., 6:30 pm M.S.T., 5:30 pm P.S.T., over the Columbia Network.

**COME NIGHTFALL**, the Pitchfork bunch sets out at Cook George Weller's chuck-wagon. Ken Stengel wrangles his guitar, while the boys vocalize that good old favorite, "Home on the Range." Camels plenty here, for, as Ted Riegel (right of coffee pot) puts it, "After you've tucked away a hearty meal, there's nothing like a Camel 'for digestion's sake'—and for extra-mild, tasty smokin' too. And most top-hands'll go along with that sentiment, all right. We say Camels the cigarette that agrees with us—all 'round'!"

**NO SIR—I DON'T GO FOR THE IDEA OF ALL CIGARETTES BEIN' ALIKE. CAMELS ARE A SIGHT DIFFERENT FROM OTHER CIGARETTES. I'VE BEEN OPEN-MINDED AND TRIED 'EM ALL, BUT I ALWAYS COME BACK TO CAMELS. I FIND CAMELS AGREE WITH ME!**

**PEOPLE DO APPRECIATE THE COSTLIER TOBACCOS IN CAMELS**

**THEY ARE THE LARGEST-SELLING CIGARETTE IN AMERICA**

Camels are a matchless blend of finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic

**"Finer, more expensive tobaccos—that's why we smoke Camels," say the men who grow and grade tobacco**

Planter Jesse T. Hardy brings out the fact that Camel buyers take the better grades on the market. He says: "For years Camel has bought my best tobacco—paid more to get it. We planters around here smoke Camels because we know Camel buys the finer tobaccos."

"Raising tobacco is my business," says John Thomas Caraway, veteran grower. "Camel bought the best of my last season's crop, as they have for many a year. So I know Camel gets finer, COSTLIER tobaccos. Naturally, Camel is the big favorite with us growers."

The way government officials spend money on fads and trills for their departments, sports, a local map, it ought to be called pomp-priming.

Father—Do you think he is interested in you in a matrimonial way?

Daughter—Well, last night he asked me if you and mother were easy to live with.

"Where should people live to be the happiest?" asks a social service worker. And diffidently we proffer the suggestion: "Within their incomes."

He—If I kissed you would you scream?

She—Of course, but I don't suppose it would do much good because there is no one home now.

Read it or not—Spalding's Baseball Guide says that the first pitching was literally pitching. The ball was not thrown. The present method has been a gradual evolution and the ball may now be tossed, jerked or thrown.

Satho—Black Boy, how did you get that soot on your coat?

Rastus—That ain't soot, Carhona, that's dandruff!

Those dear girls who are dieting and exercising so strenuously these days may be merely getting in shape to don one-piece bathing suits.

Wife—Fred! There's someone creeping upstairs!

Husband—Whazza time?

Wife—Half-past three.

Husband—Well, thank goodness, it is not me this time.

If you don't work toward the completion of your tasks and projects your labor is lost. An uncompleted job is still on your hands.

Bill—What sports do you like best?

Hollywood Katie—Those who are free with their money and know when to say goodnight and go home.

After all the evidence is in we know the good listener is really the most finished entertainer.

Figure out the next one yourself:

A lawyer died. He had an accident insurance policy which his widow tried to collect.

The insurance company said: "No, you cannot collect on this insurance policy. Death is not an accident—it is a visitation of God."

So the widow took the matter up with a lawyer, who reversed the decision. He contended that any visitation of God to a lawyer was an accident.

Women don't cry as much as they used to. They are learning to keep the smoke out of their eyes.

Jerry—My wife ran off with the butler.

Perry—What a shame that is.

Jerry—I'm satisfied. Furthermore, my house burnt down and I haven't any insurance.

Perry—Too bad.

Jerry—I'm satisfied; to cap everything off business is so bad I'm turning it over to the government in payment of my taxes. I'm going to let them do my worrying for me.

**Service**  
Cannell, Ind.—The Rev. J. Douglas, Baptist minister, told William Meador and Mary Ellen Jarrette, both 21, of Harrisburg, Ky., he could not marry them here because the license had been issued in Kentucky.

Then he adjourned the wedding party to a ferry boat and rode with the bride couple across to Hawesville, Ky., where he performed the ceremony.

## Flashes of Life Sketched in Brief

(By The Associated Press)

**Pittsburgh**—It's love again for Charles Smith, 55, and Mrs. Elizabeth Werner, 52.

They were married in 1904, divorced 25 years later and then married second mates, who have since died.

They met by chance at the home of one of their eight children last week-end. Love bloomed again and now they're altar bound for the second time.

**Nonchalance**  
Pueblo, Colo.—A snake is just another petty annoyance to Jack Gucciona's turkey hen.

When a rattler intruded on her privacy she killed it without even leaving the nest of eggs upon which she was sitting. Gucciona said she pecked the snake's head to pieces.

**Good Morning Judge**  
Manila, Utah—Dagget county finally got its first glimpse of a real district judge.

Created in 1919, the county had no felony cases until a man was charged with assault. District Judge P. C. Evans came here to conduct a preliminary hearing.

## PORT EWEN

Port Ewen, July 11—It is most important that all members of the Ladies' Auxiliary and those who expect to march with the Auxiliary at Ellenville Saturday be present at 7:30 this evening to practice marching with the Flie, Drum and Bugle Corps.

All members of the summer Junior choir will meet in the Reformed Church hall promptly at 7 o'clock this evening. At this time plans will be made for the choir to take part in the entertainment for the Dorcas Society's Country Fair which is to be held on August 4.

Mr. and Mrs. Daniel Coty of Brooklyn are visiting her parents, Mr. and Mrs. Lafayette Terpening.

Miss Emily Card has returned from visiting relatives in New York city.

The Dorcas Society will hold a picnic at Golden Rule Inn Tuesday afternoon. Cars will leave the church at 3 o'clock. A pot luck supper will be enjoyed at 6 o'clock, after which a business meeting will be held.

**Fourth Ward Ladies' Auxiliary**  
The Ladies' Auxiliary of the Fourth Ward Republican Club will hold its regular meeting at 460 Delaware avenue July 12 at 8 p. m. All members are urged to attend this meeting as plans for a clambake will be discussed.

**Second Week of Y.W.C.A. Camp**

The second week of the Y. W. C. A. Stay-at-home Camp for grade school children will start on Tuesday with the campers spending the day at Spring Lake where they will enjoy swimming, out-of-door games, and a picnic. During the quiet hour following the picnic lunch, Miss Cecile Thompson will entertain with a talk on nature study.

The camp theme this year is built around the adventures of Robin Hood and their dramatized under the direction of Miss Ruth Flicker and Miss Mary Staples will present the well-loved story. The handicraft is in charge of Miss Lillian Herdman and the children are making most attractive camp books with attractive painting and blue-print flower and leaf designs, and they will also do simple jewelry and leather work during the later periods. Dancing is again in charge of Miss Otilia Riccobono, and the song period and rhythm band are under the direction of Miss Jean Estey, and those assisting with story work, Miss Margaret Lewis and Mrs. Dorr Monroe.

The swimming instructor is Miss Priscilla Nolan and she is assisted by the Misses Virginia Luedtke, Mary Staples, Elizabeth Schoonmaker, Doris Kelsie, Genevieve Monteleone, Dolores Gilen, and Marion DuBois, with Miss Estey and Miss Herdman of the Y. W. C. A. staff generally supervising both the swimming and other activities.

Those registered during the first week of camp were: Dorothy Baker, Lorraine Baker, Gertrude Beichert, Joan Cahill, Virginia

**Dairy Firm Files Its Incorporation**

A certificate of incorporation has been filed with the department of state and a copy with the county clerk's office by Yellow Pine Dairies, Inc., of Kerhonkson. The corporation papers, filed with the state department on July 5, state that the corporation is organized for the purpose of engaging in and conducting a general creamery business. The capital stock of the corporation is \$30,000 consisting of 3,000 shares at a par value of \$10.

The corporation is formed to operate in the state of New York and the principal office is located at Kerhonkson. Duration of the corporation is perpetual.

The five directors, all of whom own 10 shares of stock and subscribe to the application for the certificate, are Fay Blanchard of Ellenville, George M. Hoornbeek of Kerhonkson, Joseph J. Terry of Kingston, R. F. D. 3, Herman Quick of Accord and Hugh Kelly of LeRoy. Lounsbury is attorney for the corporation.

A sledge team of five Esquimo dogs can travel 60 miles a day for several days.

## Foster Denies Alimony Motion

A motion for alimony and counsel fees made recently at Monticello before Supreme Court Justice Sidney B. Foster by Margaret L. Conrad against James H. Conrad, was denied it was announced today.

The plaintiff claimed she entered into common law marriage July 1, 1925, at New Orleans, La. She had lived with her husband, who said, in Louisiana, Alabama, Pennsylvania, Florida, California and other states.

The defendant contended that there was no legal status to the common law marriage in Louisiana, and further that any common law relationship between them thereon, even in a state where common law marriages are recognized, would not be sufficient to establish marriage.

The motion before Judge Foster was argued for the plaintiff by Benjamin Lonsbier of Lonsbier & Lonsbier, of Ellenville. The defendant's argument in opposition to the motion was made by Chris J. Flanagan, of Flanagan & Kaercher, of Kingston.

The German State Railways are experimenting with an improved type Diesel-electric passenger train which develops an average speed of 100 miles an hour.

## New Asphalt Surface for the Woodstock Midget Speedway

Woodstock, July 11—When the midgets roar out of the pit on Sunday, July 17, for the fourth race meeting of the summer at the Woodstock Legion Speedway it will be to baptize the new \$25,000 liquid asphalt surface, work upon which was completed this week-end, and to cast into oblivion all previous speed records at the diminutive oval.

Transformation of the course from its clay and gravel top was begun Tuesday, July 5, under the supervision of Theron Lasher, one of the speedway directors and an expert track and road builder. Crews worked constantly with the Lansell Company, of Kingston, and yesterday officials viewed the new track with pride.

The asphalt is setting up beautifully, Lasher pointed out, and it is expected that drivers of the calibre of Fanelli, Rufe Anderson, Charlie Miller, Krantz and Jack Miller will enter time qualifications well within the 16-second mark. Miller, who hails from Linden, N. J., has the best qualifying time on the old dirt track of 18.5. This speed demon, who drives the entry of Miss Nellie Hinson, also of Linden, a week ago trimmed the great Joe Garson, who rules the Freeport stadium. Fanelli stands next with a time trial of 18.6.

"It Can't Happen Here" "At previous events," Lasher said, "we gave the spectators something they never had in this section before, but from now on we'll give them something few tracks in the country can boast, except such places as Altoona and that's a big car speedway."

"Another thing," Lasher continued, "that terrible thing that happened at Ho-Ho-Kus on the Fourth of July can't happen here. You'll recall that was an infield accident. Well, we allow no one in our infield without a pit pass, and when a man signs one of them he's careful to take good care of himself, because he's on his own."

No Sunday Trials It was expected that on Sunday Ben Rymer, Kingston's ex-outboard champion, who has broken the flying shingles for midget auto racing, would be on hand to test his new "Willis" powerboat, which was built at Ben's in the best British tradition.

Rymer hoped to enter the races on July 3 but was unable to complete all details on his new creation, which is a black flash with gold wheels and is equipped with heavy bumper guards. Rain on Saturday prevented Rymer's trials at the oval yesterday, because the new track had not set up enough, and Lasher and Bill West, president, have promised him a warm-up preview of how the track feels on Wednesday, at which time Don Jackson, prominent Woodstock driver, will test his new differential bearings.

"The Best on Wheels" "We'll have the best on wheels here next Sunday," Bill West said, "including some of the boys from the metropolitan loop who've never appeared before."

Twenty-nine nations were on the allied side in the World War. They were the best on wheels here next Sunday, including some of the boys from the metropolitan loop who've never appeared before.

Joe Brown turned in a nice pitching performance at New Britain, Conn., Sunday. He limited the hard-hitting Cremos to four hits and sent 11 batters to the morgue via the strikeout route. Three cheers for the Colonial. Around ace... His teammates headed-up ball too. "Hate it to Charlie Francello, Charlie Bock and Lou Grubb. Not a bad thing to say about the Big Choo Choo was on the hill. Yesterday's defeat was the first this season for the Cremos at home. This is something to consider. Benny Benjamin did a nice job of backstopping yesterday."

Jimmy Morgan, the ex-baseballer, did some coaching at first base yesterday for the Kyanize team at Phoenixia. But he couldn't help the City League leaders from going down in the dust of battle. Two of the runners he sent to second and were cut off by Stoll. Rufe Anderson in the mountain town has it that the Kyanize rooters went home with less financial assets than they jingled in their pockets.

Something should pop on the Dizzy Dean situation before the day ends. The Club bosses are slated to meet and talk over business. Maybe it'll be voluntary retirement for Diz. Van Lingle Muro is taking mud pack treatment for his ailing wing. Claude Passeau, the fellow who laughs about superstitions, changed his mind Saturday. He yanked off his No. 13 shirt and put on No. 27 in the Philadelphia Dodgers game. Block Park should be packed to capacity for a big softball attraction Thursday evening. It'll be the Common Council vs. Supervisor Johnny Wolf's Mystery team. Yank Albright won't be able to play in the "Battle of the Politicians." He's scheduled for duty at Cornell House and can't get off. Wonder if this won't hurt the gate?

## Thrills Aplenty In Boat Races At Saugerties

Spectators attending the boat races at Saugerties were furnished with plenty of thrills on Sunday afternoon from the very first heat of the hydroplane class to the last of the inboard races. Two contestants from Hudson, had the bad breaks, the first of which occurred when one of the Hudson's boats got in the backwash of two other racers and upset. The driver was rescued by "Chick" Miller of Kingston. In the second heat of the hydroplane class two boats collided. In the crackup the Hudson craft had its slide ripped off when the other climbed up on her stern. "Chick" Miller was the hero again and got to the crackup just in time to get the boat from paying a visit to "Davey Jones Locker."

In the outboard runabout heats, Roy Palmer of Saugerties, won both by a wide margin. The "Sir Wilfred," a speedy hydroplane from Germantown, took both hydroplane heats.

The spectacular inboard race was a divided affair. In the first heat, Amos Post of Catskill won. Harold Davis of Kingston won the second heat.

On Sunday, July 24, there will be a meet at Fischer's Basin on Abeel street in which there is expected to be plenty of action. Many of the racers at Saugerties have taken regatta and promise to enter the regatta. Roy Palmer hopes to come to Kingston with his runabout and take over the boys from down the river.

Long Islander Is Soaring Champion Elmira, N. Y., July 11 (AP)—America had a new soaring champion today, quiet, dark-haired Emil Lehebeck, 25-year-old Long Island City transport pilot.

Lehebeck won the American glider crown from millionaire sportsman Richard C. de Pont, Wilmington, Del., by piling up 1,271 points to de Pont's 968 in the two-weeks national meet which ended yesterday. To de Pont, however, went a new American altitude record of 6,700 feet which surpassed the old mark of 6,224 feet. By coincidence, the young sportsman's record flight won him a gold trophy donated by his father, Felix de Pont, and a \$1,000 prize. Although not eligible for the American soaring championship because of his German citizenship, Peter Riedel, 34-year-old German embassy attache, made the outstanding record of the meet. He piled up 1,488 points to lead the field and captured a major share of the prizes.

No Trips For Gridders McAlester, Okla. (AP)—Coach Jess Dunn would like to obtain some more football opponents for next fall's schedule. "There's only one stipulation," Coach Dunn stated. "All our games must be played at home." Dunn is only coach temporarily. His full time job is being warden of McAlester prison and his players are convicts.

Win Again 4-3 Sunday morning at the Pan Am field the Promised Land married men defeated the single men in a close and exciting game of baseball by the score of 4-3. In the first inning the score was tied, both teams having scored three runs, which stood until the final frame, when Harry Olds got to second on a strike-out and scored on Hank Cragan's double.

The batteries were Ed Fleming and Bill Atkins for the married men and Tommy Long and "Stoop" Lindhurst for the singletons.

Manager Mel Stokes said he would like to hear from Jack Haber's Cat and Fiddle team concerning a game in the near future.

Maxwell Howard's Stagehand (No. 3) ran the mile and an eighth of the \$10,000 Empire City Handicap in the record-time of 1:51 to win by a half length over Fighting Fox (No. 1) beside Other horses are Mythical King (8) and Stormcloud (5). It was the first victory for Stagehand, Earle-Sands trained colt, since beating Seabiscuit in the Santa Anita Handicap.

## PGA MARKSMEN AND \$15,000 TARGET

Lined up for the PGA meet at Shawnee-on-the-Delaware, Pa., are Dennis Shute (fifth from left), Massachusetts pro seeking his third title in a row, and six other leading contenders. That's the PGA cup up front—worth upwards of \$15,000 to the winner. Left to right: Mortie Dutra, Detroit; Frank Walsh, New Hampshire; Clarence Clark, New Jersey; Frank Moore, New York; Shute; Leo Wiegel, Philadelphia; Paul Runyan, New York.

## Snead Strong For P.G.A. Prize

Shawnee on Delaware, Pa., July 11 (AP)—Samuel Jackson Snead, who was such a bust in the National Open, is ready for another bust—but this time he means to bust the Professional Golfers Association Championship wide open.

Samuel Jackson still is smarting from his disappointing showing at Denver, where he finished in the 300's and well out of the money. Since then he has gathered sufficient evidence to show he is back in the groove.

Samuel Jackson came to the Shawnee C. C. a course he hadn't seen in two years, and carved out a three under par 69 yesterday in the first P. G. A. qualifying round. This left him two strokes off Harry Cooper's near record pace as the second and final 18-hole elimination got under way today.

Two strokes behind Cooper at the start of today's round, from which Shute and the 63 low scorers will go into match play tomorrow, Sam started in a three-some with two other pace-setters. They were Frank Moore, general manager of the club, and M. J. Thompson, who was bracketed at 71. Six others, among them three-time winner Gene Sarazen, Byron Nelson and Ray Mangrum, had par 72's to show for their first round.

Jimmy Hines and Ky Lafoon were at 73; Shute, Johnny Revoita, Billy Burke and Jug McSpaden at 74; Horton Smith at 75, and Tony Manero, Leo Diegel and Johnny Farrell at 76.

Married Men Win Again 4-3 Sunday morning at the Pan Am field the Promised Land married men defeated the single men in a close and exciting game of baseball by the score of 4-3. In the first inning the score was tied, both teams having scored three runs, which stood until the final frame, when Harry Olds got to second on a strike-out and scored on Hank Cragan's double.

The batteries were Ed Fleming and Bill Atkins for the married men and Tommy Long and "Stoop" Lindhurst for the singletons.

Manager Mel Stokes said he would like to hear from Jack Haber's Cat and Fiddle team concerning a game in the near future.

## Yonkers Canoeers Win Championship

Lake Mohawk, N. Y., July 11 (AP)—The Yonkers, N. Y., Canoe Club won its fifth straight meet in the Lake Mohawk canoe championship today.

Yonkers scored 25 points. The Pendleton Canoe Club of New York was second with 19 points, and the Washington, D. C., Canoe Club third with 12.

Ernie Riedel of Pendleton, Olympic star, was high individual scorer among 95 entered with a total of 124. Harold Bruns of Yonkers was second in the senior division with 54, and Steve Ly-sak of Yonkers, third, with 51.

Charles Sheffield of Yonkers led the junior division with 64 points. Andy Kullakowich, Yonkers, was second with 64, and Samuel Turner of Sebago Canoe Club of Bear Mountain, N. Y., third with 54.

Four others, ex-Champion Paul Runyan, U. S. Open Champ Ralph Guidahl, Dick Metz and Marvin Stahl of Lansing, Mich., were working on 70's, while nine more, including home club Pro Jimmy Thompson, were bracketed at 71. Six others, among them three-time winner Gene Sarazen, Byron Nelson and Ray Mangrum, had par 72's to show for their first round.

Indians and the Pirates Come Through in Crucial Contests By HUGH S. FULLERTON, "R. Associated Press Sports Writer One of the time-tested ways of deciding whether a baseball team really has the stuff to make it a pennant-winner is to see whether it can come through in those games where one run is the difference between victory and defeat. That ability is what makes the Cleveland Indians and Pittsburgh Pirates look good right now.

When the Indians staggered through to an 8-7 win over the St. Louis Browns yesterday, it was their third straight one-run victory and their 16th in 24 games decided by that margin this season. Incidentally, it gave them a two-game margin over the New York Yankees, who dropped a 6-4 decision to Boston and Lefty Grove.

Pittsburgh, sweeping a double-header with the St. Louis Cardinals to run its winning streak to 11 straight, has done even better in that line. The Pirates had lit-

tle trouble winning the opener, 5-2, then came through 4-3 in the afterpiece. That was their 21st one-run triumph against six defeats. The Pirates wound up two games behind the New York Giants, who belted out a 5-2 victory over the Boston Bees.

The Cincinnati Reds, who took over the third place Saturday, made it three straight over Chicago as Johnny Vander Meer squared accounts with Bill Lee. The score was 3-1.

Washington advanced to fourth place in the American League and Detroit dropped from a tie into fifth as the Senators won two games from the Athletics while the Tigers lost, 5-4, to the Chicago White Sox. Washington took the opener, 5-2, and beat the A's 5-7 in the second game.

The Brooklyn Dodgers and Philadelphia Nationals divided a double-header and their "cellar" series, Brooklyn winning the opener 6-3 and the Phils the nightcap 5-3.

### Home Leaders Make It Fifth, Defeating Roscoe Team 6 to 1

Charlie Grunenwald's Home Leaders made it five straight wins Sunday afternoon when they defeated the high class Roscoe nine 6 to 1. The Grunenwald pitchers held down the heavy hitters of the Roscoe nine, who have battered out some of the best flingers of the metropolitan and hurling semi-pros, completely muzzling them by holding them to three hits.

Grunes scored in the fourth. Gadd singled to right, Kelly was safe when Knickerbocker tumbled his hard grounder. Minasian went out on called strikes. Dullin then shot a hard drive to right, scoring Gadd. Quest fled to center and Dykes was out on a fielder's choice to end the inning.

The Bakers scored five in the seventh and three hits and two errors, making the score read 6 to 0 in their favor.

The Roscoettes scored their only run in the last of the ninth. Wood, the first man up, doubled to center. White singled to left driving in Wood. DeMarco struck out. Hunter then fled to short. Knickerbocker fled out to Dykes in deep center to end the game.

The Grunes' infield, playing a wonderful defensive game, stopped some smashing drives and held the Roscoettes to three hits and two errors.

Wednesday night the Grunes play the Hedricks in the City League. Next Sunday the Bakers play the Chevies at Napanoch.

### Huron Indians Scalp Habermen On Sunday 10-6

Sunday afternoon at Fair View Park, Stone Ridge, the Huron Indians piled up an early lead on Bud Swarthout to defeat the Cat and Fiddle, 10-6. In the fifth inning, Ben Toffel relieved Swarthout for the balance of the contest and while he was on the mound, the home club collected five hits and as many runs. Toffel made 12 strikeouts.

Tom McManus on the Indians' hill gave 11 scattered hits and registered a like number of strikeouts. Paul Rask led the Huron batsmen with a single, double and triple. Frank Neff hit a home run with his brother on base in the second inning. C. Neff banged a single and double.

For the Cat and Fiddle, Struble, Buchanan and Decker each cleaned a pair of hits. E. Muller's single, a long triple by P. Rask and Cragan's belt scored two runs for the Hurons in the first. In the second, C. Neff opened with a double and E. Neff followed with a long home run. At error by Schlick, Cragan's steal and a hit by Davis accounted for the fifth run.

The Habermen got to McManus for runs in four frames, but were unable to bunch their efforts for more than two runs at any time.

### Behind the 3-hit pitching by "Schoolboy" Bush, the strong Phoenixia nine collected 21 hits to completely crush the Kyanizers, city league leaders and there- by annex their fifth straight win of the season. Dewey Van Buren started on the mound for the visitors. The mountaineers were relentless in their hitting and sent him to the showers in the sixth. Andy Celuch relieved Van Buren but fared little better as the Phoenixians continued to slug the ball to all corners of the field.

Harlin, Phoenixia's best centerfielder, led the hitting attack with a single, two doubles and a triple. Stoll, Turk and Morrison all pounded the ball hard. Eddie Burgerlin poked a mighty home run into deep left field with one mate on the bases in the second inning.

Phoenixia drew first blood in the first when Turk opened with a single. Hurgovin singled, Stoll and Morrison singled and when the dust cleared two runs were across the plate. Kyanize came right back in the second to score three runs on three walks and two singles by Messing and Van Buren. The game settled down to a nip and tuck battle until the sixth, when the Kyanize scored two runs to knot the count at five-all. Slicker singled, Dawkins singled and Debrosky poked a long triple to deep left center. Phoenixia came back to score two runs in the seventh and put the game on ice with a 5-run barrage in the eighth on singles by Turk, Hurgovin, Stoll, Sanford and Morrison and Harlin's second double and fourth hit of the game.

What originally was thought to be a close battle turned into a complete rout for the City League leaders. The Kyanize presented a formidable lineup strengthened by the addition of Andy Celuch, Bill Messing and Charlie Vine. Stoll played sensationally for the home club nipping three runners attempting to steal second and catching "Bob" Slicker off first base by at least 10 feet in the eighth inning.

## Four People Burn In Plane Crackup

Armonk, N. Y., July 11 (AP)—The body of a woman victim remained unidentified today as police investigated the crash of a six-seater plane that took four lives.  
The other victims were the pilot, David M. Houghton, of 314 Hope street, Springfield, Conn., and two passengers, Clifton R. Wilson, of Danbury, Conn., and Charles R. Putnam, of Bedford, N. Y.  
Houghton, about 30, was a transport pilot for the Leech Aircraft Company, operators of the Armonk airport. He was also an official of the Houghton Oil Company, which operates gasoline filling stations in Connecticut.  
Putnam, son of Dr. and Mrs. C. R. L. Putnam, Canfield Road, Danbury, was associated with the Federer Lines, a small airline operating out of Newark.  
Police Officer Edward J. Hendrigh of North Castle said witnesses told him the plane crashed about 9:15 Sunday night after Houghton tried to take it back into the air when it bumped the ground heavily in landing.  
The five-seater monoplane refused to gain altitude, however, and crashed into a fruit orchard from a height of 50 feet. It burst into flames and burned so fiercely it was two hours before the bodies could be removed. The occupants apparently were killed by the impact.  
The flight was the final trip planned by Houghton, who had been taking up sightseeing groups all day. He was returning from a 15-minute tour, prepared to put the plane up for the night, when it crashed.

## ONLY ONE OF 10 ABOARD WAS KILLED

Believing the crumpled condition of this Northwest Airlines transport which crashed in a takeoff at Billings, Mont., is the fact that only one of the ten aboard—Mrs. N. S. Mackay, a passenger from Evanston, Ill.—was killed. Seven other passengers and a crew of two escaped.

## Aid for Humanity Is Sweden's Aim, Prince Explains

Cambridge, Mass., July 11 (AP)—Asserting Sweden did not want "to obtain prosperity at the expense of others," Crown Prince Gustaf Adolf of Sweden said today his country wished "to cooperate with others for the welfare of the whole of the human race."  
He spoke at Harvard University, where President James Bryant Conant conferred upon him the honorary degree of Doctor of Laws in the presence of Crown Princess Louise and his son, Prince Bertil.

Sweden, Gustaf Adolf said, had come in the public eye because "since the Great War we have been able to overcome comparatively successfully two severe periods of economic depression." But he added "when people single out Sweden as being the land of prosperity and social well-being, I have the feeling that 'touch wood' is the word to be appropriately used."  
Briefly surveying economic conditions and social welfare arrangements in Sweden, the crown prince, who is traveling in the United States in connection with the 300th anniversary of the first landing of the Swedes in America, said:  
"I feel certain that there does not exist today a more thorough form of democracy than ours, the rights thus gained being jealously guarded by the whole people."

**Silver to West Point**  
New York, July 11 (AP)—Nine trucks moved nearly \$4,000,000 worth of bar silver today from the U. S. assay office to the new government vaults at West Point. The first two trucks left before dawn with an escort of police radio cars. The others, in groups of two or three, followed at half-hour intervals. Two guards were aboard each truck.

**Minister to Colombia**  
Washington, July 11 (AP)—A 44-year-old American business man—Ambassador Spruille Braden, will become minister to Colombia just as soon as the Chaco jungle dispute between Paraguay and Bolivia is settled finally. Terms of a settlement, engineered largely by Braden, were approved last week.

## Passenger Grabs Wheel, Car Leaves the Road

A car driven by Edward Katz of New York city, left the road about ten o'clock Saturday night, south of the Accord Reformed church, and tore down 40 to 50 feet of fence in front of Besedky's Pine Hill House. The accident is said to have happened when a passenger grabbed the wheel, thinking a pedestrian carrying a flashlight was an approaching car with only one headlight.  
Mrs. Fay Mandenberg of New York, Katz's sister-in-law, was slightly injured. Deputy Sheriff McCullough investigated the accident.

## Accord Man Fails to Press Reckless Driving Charge

A Lang coupe driven by David J. Nash of Accord was badly damaged along its left side Saturday night when it collided with a car driven by William Bender also of Accord. The accident happened near the Weinstein farm on the Mettacasious road, the cars coming from opposite directions.  
Deputy Sheriff McCullough and Winnie took Bender before Justice Fred Simpson, but on arriving in court Lang withdrew the charge.

**Excelsior Hose Meeting**  
A meeting of members of Excelsior Hose Co. will be held this evening at 8 o'clock to complete arrangements for the trip to Eltonville on Saturday when Excelsiors will participate in the firemen's parade. All members of the company including the band of 30 pieces will take part in the parade. The ladies auxiliary of 50 will participate and the company will go out 80 strong. After the session this evening refreshments will be served.

**Turn for Better**  
Washington, July 11 (AP)—The nation's health took a turn for the better with the start of the new year. The public health service, announcing fewer deaths, more births, less accidents, less disease in January, February and March, said today the health record was one of the most favorable for the quarter in recent years. Deaths were 12 per cent fewer than last year. Births increased 5 per cent. Pneumonia deaths dropped 33 per cent and influenza fatalities 70 per cent. Only cancer and infantile paralysis increased.

## Howard Hughes Lands in Paris

(Continued from Page One)  
today on its non-stop hop to Paris, first goal of a speed flight around the world.  
Earlier fears by Hughes that his fuel supply would be exhausted apparently were dispelled as the lightening plane picked up speed with every passing hour.  
Albert Lodwick, flight manager, said Hughes had radioed the liner Ile de France in mid-ocean at 5:25 A. M. (E. S. T.)—11 hours and 5 minutes after the takeoff—that he was 2,250 miles from New York.  
Lodwick, confident the fuel supply would hold out, said the plane should complete the 3,600-mile flight "in 17 or 18 hours" if it could maintain its speed, instead of the 22 to 24 hours expected. The big rebuilt \$85,000 transport ship, added by tailfin, was traveling an average of 30 miles more an hour than was hoped.  
"Hughes should pick up speed from now on," Lodwick said. "He has plenty of gas, however, so there need be no worry about him reaching Paris."  
A ground temperature of 90 degrees took heavy toll of the fuel supply after the heavily-loaded rebuilt transport plane turned its blunt nose skyward from Floyd Bennett Airport at 6:20 (PES) last night.  
Three hours later Hughes, broadcasting over a national hook-up of American stations, the plane plowed through intermittent rain squalls at an average speed of over 190 miles an hour, said:  
"The heat has made it impossible for us to secure the economy from our engines we had expected. The ship is performing about as expected."

**Rain Through Windshield**  
Rain sweeping through a leaky windshield added to the discomfort of the fliers during the first hours of the flight.  
As the plane turned toward the open sea, Hughes reported an electrical reel in the hold of the plane used for lengthening the radio antenna had broken. A hand reel was quickly put into service.  
As dawn broke over the Atlantic, 1,400 miles from the takeoff, Hughes expressed doubt whether the fuel supply would enable them to reach Paris but said he was confident they would be able to reach land safely.

Flying the 3,600-mile "great circle" route traversed by Charles A. Lindbergh in 1927, Hughes expected to land at Le Bourget Field in Paris 22 or 24 hours after his takeoff. It took Col. Lindbergh, flying solo in a slower plane, 33½ hours. He was the first—and the last to date—to make the flight successfully.  
The rebuilt plane, freighted to a gross weight of 25,000 pounds, gave 5,000 spectators a 45-second nerve-tugging thrill last night as it labored down the runway for more than 3,000 feet before hurtling heavily into the air. It barely cleared a patch of trees at the end of the runway.  
Before the takeoff, the fuel supply was reduced from 1,800 to 1,600 gallons after Hughes expressed doubt that the big craft—measuring 55-feet across, the wings could leave the ground.  
The laconic 34-year-old pilot, a 6-foot 3-inch Texan who began a career in adventure by inheriting \$17,000,000 when he was 18 years old, listened as Grover Whelan christened the twin-motored plane "New York World's Fair 1939."

A few minutes before, Hughes, aeronautical advisor for the fair, told the crowd in a brief speech over a public address system:  
"I hope that in some measure this flight will bring about a world fellowship among aviators. No matter whether you are Hindu or American, as I am, if you speak the same language."

**Goodbye to Hepburn**  
The flier, who once set a world speed record for land planes and still holds the transcontinental speed record, bade farewell privately to Katharine Hepburn, screen star, to whom he has been reported engaged, before he drove to the field. Miss Hepburn did not visit the airport.  
Pitted cylinders and a balky right-wing motor had delayed the start for almost 24 hours. A new magneto was installed by mechanics two hours before the takeoff.  
Hughes showed the strain of sleepless nights as he climbed into the cockpit.  
In the seat beside him sat Ed Lund, engineering mechanic. His other companions were Navigators Harry Connor and T. L. Thurlow and Radio Engineer Richard Stoddard.  
All five fliers waved cheery goodbyes as the ship trundled to the runway. Wives of three of the men were among the crowd.  
Hughes kept in almost constant radio contact with flight headquarters at the World's Fair and made periodic broadcasts over American radio chains. Vessels of 15 steamship lines along the route kept him posted on weather conditions.  
Flight advisors said that barring "diplomatic complications" Hughes probably would stop at Paris only long enough to refuel and then take off for Moscow. They indicated that earlier difficulties in obtaining permission to fly over central European countries had been ironed out.  
The fliers expected to parallel roughly the 15,000-mile route taken by the late Wiley Post in his solo record flight around the world in 1931.  
Hughes, who expected to save refueling time by making only six stops, hoped to complete the trip in five days—almost three days less than Post—at a cost of approximately \$300,000.  
After leaving Moscow he planned to make two stops in Siberia and then hop to Fairbanks, Alaska, Edmonton, Alberta, Canada, and back to Floyd Bennett Field.

## Taffy Thomas Goes To Hospital After Stabbing Affray

As the result of a stabbing affray at East Kingston, Charles Richardson, 26-year-old negro "foater," who gave his address as 4625 Langley avenue, Chicago, is being held at the Ulster county jail on a charge of assault in the first degree. He will be arraigned before Judge Traver and will doubtless be held for appearance before the grand jury.  
Richardson is charged with having stabbed Taffy Thomas, East Kingston brickyard worker, with a jack knife, the blade entering below the heart. Thomas was taken to the Kingston Hospital, where his condition this morning was said to be "just fair."  
After the stabbing, which occurred at Rose's brickyard, Richardson left the scene. Following a search Deputy Sheriff Vredenburg and McCullough picked him up along the road, late last night. He was understood to be making his way out of this part of the country.  
The deputies learned that the stabbing was the outcome of an argument which started at Goldrick's brickyard and wound up with the stabbing at the Rose brickyard.

## Two Hurt Fatally In 9-W Accident

seat were most severely injured while those in the rear were less seriously hurt.  
Taking place on the stretch near Staten Island Inn just south of the Lake Katrine intersection, the crash blocked all traffic on route 9-W for a time and traffic was sent over the old road which runs east of the three strip concrete pavement.  
**Parents Notified**  
Mrs. Arndt's parents were notified of the accident and came to the Benedictine Hospital early in the evening. Following her death about midnight Coroner Lester DuBois ordered an autopsy performed and the body was taken in charge by A. Carr & Son.  
In addition to Troopers Reilly and Stuckles and the officers from the sheriff's office State Trooper Paul Senecal, on motorcycle patrol on route 9-W assisted in the investigation and aided in directing traffic while the main route was tied up.  
The two deaths brought the
